

CALL FOR PAPERS

ICMWMPR 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMWMPR 2022 : International Conference on Medical Waste Management Practices and Risks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Medical Waste Management Practices and Risks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Medical waste management	Legislation
Medical waste risks and impact on health and the environment	Treatment and disposal
Persons potentially exposed	Choosing treatment and disposal methods
Risks associated with hazardous medical waste	International agreements
Risks of trauma and infection	Fundamental principles of a waste management
Survival of micro-organisms in the environment	Sub-contracting, regional cooperation
Biological risks associated with exposure to solid household refuse	Initial assessment
Chemical risks	Preparing the waste management plan
Risks associated with the inappropriate processing	Estimating costs
And dumping of hazardous medical waste	Implementing the waste management plan
Incineration risks	Minimization, recycling
Risks related to random disposal or uncontrolled dumping	Sorting, receptacles and handling
Risks related to the discharge of raw sewage	Sorting principles
