

CALL FOR PAPERS

ICRPTM 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRPTM 2022 : International Conference on Rapid Prototyping, Tooling and Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rapid Prototyping, Tooling and Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rapid prototyping	Selective laser sintering
Computer-aided design and manufacturing	Agile software development
Rapid prototyping and production	Cloud computing
automotive spareparts	Supply chain management
Software development	New product development
3D printing	Design for agile manufacture
Ballistic particle manufacturing	Agility in remote production
Directed light fabrication	Quality assurance and six sigma
Direct-shell production casting	Empirical methods for assessing lean and agile processes
Fused deposition modeling	Cross-disciplinary aspects of agility
Laminated object manufacturing	Agile software development
Shape deposition manufacturing	Agile supply chain development
Solid ground curing	Micro/nano manufacturing
Stereolithography
