

# CALL FOR PAPERS

**ICSRC 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRC 2022 : International Conference on Social Robotics and Communication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Social Robotics and Communication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Social robotics  
Robotics and human environment  
Interaction and collaboration among robots, humans, and environments  
Robots to assist the elderly and persons with disabilities  
Socially assistive robots to improve quality of life  
Affective and cognitive sciences for socially interactive robots  
Personal robots for the home  
Social acceptance and impact in the society

Robot ethics in human society  
Context awareness, expectation, and intention understanding  
Control architectures for social robotics  
Socially appealing design methodologies  
Safety in robots working in human spaces  
Human augmentation, rehabilitation, and medical robots  
Robot applications in education, entertainment, and gaming
