

CALL FOR PAPERS

ICWRTALA 2022
Sep 27-28, 2022
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWRTALA 2022 : International Conference on Wildlife Radio Tagging, Animal Location and Activity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Radio Tagging, Animal Location and Activity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife radio tagging
Animal monitoring technology
Equipment, field techniques and data analysis
Analysis of wildlife radio-tracking data
Models of age-specific survival and breeding
Demographic estimates from radio-tagging
Wildlife radio telemetry
Fish and wildlife tracking solutions
Effects of radio-tagging on breeding behavior

Methods of radio-tagging
Techniques for radio-tagging
Online localization of radio-tagged wildlife
Tracking animal location and activity
Marine mammal tagging
Wildlife control technology
GIS for wildlife management
GIS for wildlife conservation
Satellite imagery
