

CALL FOR PAPERS

ICCB 2022
Sep 20-21, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCB 2022 : International Conference on Coastal Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Changing distribution pattern of coastal bioresources
Coastal and marine bioresources
Conservation biology
Coastal and marine biogeography and phylogeny
Large marine ecosystems

Coastal biotechnology: facing the global and regional changes
Sustainable aquaculture
Fisheries and CO₂ sequestration
effects of coastal reclamation on bioresources
Biotechnologies of salt-tolerant plants
