

CALL FOR PAPERS

ICACRGA 2022
Sep 23-24, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACRGA 2022 : International Conference on Advances in Cold Regions Geotechnologies and Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Cold Regions Geotechnologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical engineering in cold regions
Cold regions
Cold regions geotechnology
Cold region field investigations
Descriptive and geotechnical aspects
Physical and thermal properties of frozen ground
Ground thermal regime
Thaw consolidation

Mechanical properties of frozen ground
Foundations for cold regions
Slope stability in cold regions
Response of frozen ground to dynamic loading
Field investigations of frozen ground
Ice pressures and bearing capacity
Disaster mitigation and rehabilitation
