

CALL FOR PAPERS

ICWPWQ 2022
Sep 23-24, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWPWQ 2022 : International Conference on Water Pollution and Water Quality is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Pollution and Water Quality. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering
Water pollution
Point sources
Non-point sources
Groundwater pollution
Environmental impacts and control
Safe water
Water quality
Causes
Pathogens
Organic, inorganic and macroscopic contaminants
Thermal pollution
Transport and chemical reactions of water pollutants

Measurement
Wastewater treatment technologies
Water reclamation
Water cycle
Sampling
Physical testing
Chemical testing
Biological testing
Control of pollution
Sewage treatment
Industrial wastewater treatment
Agricultural wastewater treatment
Erosion and sediment control from construction sites
