

# CALL FOR PAPERS

**ICEAC 2022**  
**Sep 16-17, 2022**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAC 2022 : International Conference on Embodied Agents and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Embodied Agents and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Embodied agents	Distance perception
Embodied cognition	Perspective
Control in embodied systems	Language comprehension
Embodied-brain systems	Memory
Embodied social cognition	Reasoning
Intelligent dialogue management	Approach and avoidance
Affective user modelling and adaptation	Self-regulation
Personality, cognitive and affective capabilities	Social psychology
Memory structures and processes	Evolutionary view
Perception and awareness	Cognitive science and linguistics
Advantages	Conceptual metaphor
Applications	Image schema
Visual search	Prototypes
