

CALL FOR PAPERS

ICN 2022
Sep 16-17, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICN 2022 : International Conference on Nanobiotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanobiotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanobiotechnology
Protein-based nanostructures
Applications of nanobiotechnology
Interphase systems
DNA-based nanostructures
Nanoanalytics
Application of nano tools to biological systems

Nanomedicine and therapeutic nanodevices
Quantitative analytical tools
Physical model of the cell
Ex-vivo tests
Improvement in current laboratory techniques
Drug delivery systems
