

CALL FOR PAPERS

ICCCMA 2022
Sep 27-28, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCMA 2022 : International Conference on Climate Change Mitigation and Adaptation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climate Change Mitigation and Adaptation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate change mitigation

The impacts of climate change
mitigation strategies

Environmental and economic benefits
of climate change mitigation
strategies

Ecosystem resilience and climate
change adaptation strategies

Technologies for climate change
mitigation

Greenhouse gases and agriculture

Renewable energy sources and
climate change mitigation Ethical
principles for climate change
mitigation

Climate change and agriculture

Climate change and disaster risk
management

Climate change and health issues

Climate change and sustainable
development

Disaster risk reduction

Ecological engineering

Energy systems

Health-promoting climate change
policies

Infrastructure and buildings

Mitigation, adaptation and risk
management

Modeling and analysis

Oceans, seas and biodiversity

Policies, strategic planning, and
education programs

Protecting health from climate
change

Reducing greenhouse gas emissions
and other climate pollutants

Smart grid and climate change

Sustainable energy

Water and sanitation, food security
and waste management

Water resources engineering and
management
