

# CALL FOR PAPERS

**ICAMMM 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMMM 2022 : International Conference on Applications of Multifunctional Magnetic Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Multifunctional Magnetic Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Multifunctional magnetic materials

Multifunctional magnetic nanoparticles

Recent advances in multifunctional magnetic nanoparticles

Specific requirements for multifunctional magnetic nanoparticles

Promising multifunctional magnetic nanoparticles

Functionalization of multifunctional magnetic nanoparticles

Applications of multifunctional magnetic nanoparticles

Novel multifunctional magnetic materials and applications

Magnetic materials with phase transition-driven functionality

Multifunctional magnetic composites

Multifunctional magnetic and magneto-transport properties

Magnetocaloric materials

Nanocrystalline magnetic materials and applications

Hard magnetic materials

Magnetic shape memory alloys

Magnetic oxides

Soft magnetic wires for sensor applications

Advanced multifunctional magnetic materials
