

CALL FOR PAPERS

ICAPCM 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPCM 2022 : International Conference on Avalanche Prevention, Control and Mitigation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Avalanche Prevention, Control and Mitigation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|----------------------------------|--|
| Avalanche control | Response and recovery |
| Avalanche defense | Professional preparedness |
| Avalanche safety | Amateur preparedness |
| Avalanche control measures | New avalanche control technology |
| Avalanche control activities | Alternate methods of avalanche control |
| Avalanche control operations | Avalanche mapping |
| Avalanche prevention and control | Avalanche hazard assessment and mitigation |
| Risk and hazard assessment | Helicopter avalanche control |
| Prevention and mitigation | Snow and avalanche control |
| Observation and forecasting | Some recent advances |
| Active interventions | Weather climatic control on snow |
| Permanent interventions | avalanche occurrence |
| Social interventions | Avalanche risk assessment |
