

CALL FOR PAPERS

ICASMP 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASMP 2022 : International Conference on Agricultural Sustainability Management Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Sustainability Management Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural sustainability
Farming and natural resources
Methods for agricultural sustainability
Agricultural management practices
Agricultural nutrient balance
Crop yield and soil quality
Agri-environmental quality
Sustainable intensification
Soil treatment
Agricultural biodiversity and organic farming

Agrobiodiversity
Innovations in crop research
Soil fertility and organic farming
Plant breeding strategies
Functional biodiversity and pest management
Sustainable crop systems
Modeling for agricultural sustainability
Biotechnological approaches for increasing productivity
International policy
Urban planning
