

CALL FOR PAPERS

ICBRMBSD 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBRMBSD 2022 : International Conference on Blast Resistant Modular Buildings and Structural Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Blast Resistant Modular Buildings and Structural Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Blast resistant modular buildings
Architectural and structural design
for blast resistant buildings
Blast resistant buildings design
Design approaches
Design considerations
Structural form and internal
layout
Structural response
Nonstructural elements
Information sensitivity

Risk assessment
Vulnerability assessment
Threat reduction
Materials performance
Performance criteria for blast
resistant structural components
Performance verification
Blast loading
Fragmentation
System analysis and design
