

# CALL FOR PAPERS

**ICCCST 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCST 2022 : International Conference on Cloud Communications, Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cloud Communications, Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cloud communications  
Cloud based communications systems  
and applications  
Cloud communications process  
enhancement techniques  
Cloud-based communication  
technology  
Network based communications  
interfaces and architectures  
Advantages and disadvantages of  
cloud communications  
Cloud communications in business  
applications  
Distributed adaptive development  
environment  
Communication technologies  
Knowledge management
