

CALL FOR PAPERS

ICCIP 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIP 2022 : International Conference on Cognitive Infocommunications and Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Infocommunications and Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive infocommunications
Infocommunications and cognitive sciences
Engineering applications of cognitive infocommunications
Relation between cognitive processes and infocommunications devices
Artificially cognitive system
Intra-cognitive communication
Inter-cognitive communication
Sensor-sharing communication
Sensor-bridging communication
Representation-sharing communication
Representation-bridging communication
Socio-cognitive cognitive infocommunications and collective knowledge
Embodied and enactive cognitive systems

Cognitive biases in human perception and high-level reasoning
Industrial applications of cognitive infocommunications
Ergonomics-based aspects of cognitive infocommunications
Cognitive infocommunications channels
Cognitive infocommunications and speechability
Augmented interaction capabilities and augmented cognition
Ethology-inspired engineering
Cognitive informatics and media
Future internet, internet of things, and 3d internet
Cognitive networks of cars
Intelligent car informatics
Infocommunication-related aspects of the cognitive sciences
Intelligent vehicle and transportation systems
