

# CALL FOR PAPERS

**ICCPTE 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPTE 2022 : International Conference on City Planning and Transportation Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of City Planning and Transportation Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil and transportation engineering  
General scope of city planning  
Public transportation effects to economic and environment  
General scope of urban regeneration  
Planning, development and management  
The community and the city  
Urban strategies  
Architectural issues  
Cultural heritage issues

Landscape planning and design  
Urbanization of rural areas  
Environmental management  
Waste management and intelligent environments  
Quality of life  
Infrastructures and social services  
Sustainable urban tourism  
Planning for risk and natural hazards  
Case studies
