

CALL FOR PAPERS

ICCSSE 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSSE 2022 : International Conference on Computer Science and Software Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science and Software Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence
Artificial Neural Networks
Automated Problem Solving
Brain Modeling
Case-based Reasoning
Cognitive Science
Collaborative Filtering
Computational Intelligence
Intelligent Agents
Intelligent Information Fusion
Knowledge Discovery and Management
Learning and Adaptive Sensor
Fusion
Natural Language Processing

Neural Networks and Applications
Pattern Recognition
Robotics
Swarm Intelligence
Computer Graphics
Computer Vision & Scientific
Visualization
Data Compression for Graphics
Geometric Computing
Graphics Systems Architecture
Interaction Techniques and HCI
Rendering Techniques
Shape, Surface & Physically Based
Modeling
