

CALL FOR PAPERS

ICECFC 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECFC 2022 : International Conference on Error Control and Flow Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Error Control and Flow Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|--------------------------------|
| Error control | Error detection schemes |
| Types of error control | Repetition codes |
| Error control in communication networks | Parity bits |
| Communication networks | Checksums |
| Flow control | Cyclic redundancy checks |
| Error control codes | Cryptographic hash functions |
| Error control coding | Error-correcting codes |
| Error detection and correction | Error correction |
| Information theory and coding theory | Automatic repeat request (arq) |
| Implementation | Error-correcting code |
| Error control operators | Hybrid schemes |
