

CALL FOR PAPERS

ICEDMA 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEDMA 2022 : International Conference on e-Design and Mechanical Assembly is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of e-Design and Mechanical Assembly. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-aided engineering design
e-Design
Geometric and solid modeling
Mechanical assembly
Design parameterization
Product data management
Kinematic and dynamic analyses of mechanical systems
Fatigue and fracture analysis

Failure probability estimate
Reliability-based design
Virtual manufacturing
Rapid prototyping
Product cost estimate
Design decision making
Design optimization
Future trends in all-digital design
