

CALL FOR PAPERS

ICESET 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESET 2022 : International Conference on Energy Systems Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Systems Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy Systems Engineering and Technology
Energy Systems and Technologies
Policy, Education, and Legal Aspects of Energy
Biofuels and Sustainable Energy
Fuel Cells and Hydrogen Energy Technologies
Energy Systems Design and Thermoeconomic Analysis
Renewable and Alternative Energy Technologies
Low/Zero Emission Power Plants
Transportation Energy Systems
Micro and Nano Technologies
Applications to Energy Systems
Energy for Sustainability
Geothermal Energy, Harvesting Ocean Energy and Other Emerging Technologies
Climate, Emissions and the Environment

Combined Energy Cycles, CHP & CCHP, and Heat Recovery Technologies
Thermofluids and Thermodynamics of Energy Systems
Carbon Sequestration
Advances in Solar Buildings and Conservation
Nuclear Energy Systems and Technologies
Solar Thermochemistry
Photovoltaics
Concentrating Solar Power
Solar Heating & Cooling
Advances in Solar Thermal Storage
Wind Energy Systems and Technologies
Water Desalination & Distillation Systems
