

# CALL FOR PAPERS

**ICFMSRD 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMSRD 2022 : International Conference on Flexible Manufacturing Systems and Recent Developments is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flexible Manufacturing Systems and Recent Developments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering  
Manufacturing practices  
Flexible manufacturing  
Flexible manufacturing system  
Manufacturing flexibility  
Manufacturing systems  
Design of flexible production systems  
Production planning  
Flexible production  
Recent developments  
Global economy  
Lean systems  
Modeling, simulation and control

Analysis of performance measures  
Multiple machines  
Material handling system  
Advantages  
Disadvantages  
Flexibility  
Industrial communication  
Research, design and development of systems  
Processes, machines, tools and equipment  
Modern developments  
Modern tools  
Mechanics  
Automation
