

CALL FOR PAPERS

ICHADA 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHADA 2022 : International Conference on Healthcare Architecture, Design and Aesthetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Architecture, Design and Aesthetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare architecture and design
Sustainable healthcare architecture
Indoor environment quality
Sick building syndrome
The culture for the future of healthcare architecture
Analysis of healthcare design projects
Design strategies for healthcare architecture
Modern healthcare architecture
Innovative healthcare design and construction planning
Sustainability in healthcare design

Principle and secondary aesthetic design factors
Aesthetic guidelines for healthcare design
Healthcare architecture and design codes and standards
Aesthetics considerations in healthcare architecture and design
Environmentally compatible healthcare architecture and design solutions
Impacts of innovative materials in healthcare architecture and design
Architecture, construction and environmental engineering
Structure plans, specifications and estimate development
Structure types and components
