

CALL FOR PAPERS

ICIDPDL 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIDPDL 2022 : International Conference on Industrial Design, Product Development and Logistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Design, Product Development and Logistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial engineering
Industrial design
Process of design
Planning
Construction
Industrial efficiency
Industrial technology
Techniques of mass production
Precursors
Birth of industrial design
Industrial design rights

Examples of iconic industrial design
Industrialisation design
Technical expertise and manufacture
Engineering design
Manufacturing
Planning and design
Innovation
Logistics
Simulation in operations management
Industrial engineering and management
