

CALL FOR PAPERS

ICIEMEE 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIEMEE 2022 : International Conference on Integrated Ecosystem Management and Environmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Integrated Ecosystem Management and Environmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Integrated ecosystem management
Integrated resource management and planning
Environment and natural resource management
Urban and rural development
Biodiversity and ecosystems management
Ecosystem approaches in integrated water resources management
Community-based approach to ecosystem based fisheries management
Ecosystem-based adaptation and engineering options
Ecosystem-based management tools network
Fisheries management, marine protected areas and fisheries
Integrated island management
Marine biodiversity conservation
Ecological development

Air quality and atmospheric pollution
Aquaculture
Conservation
Ecosystems and ecology
Ecosystems management
Environmental economics - sustainable services and systems
Environmental health
Environmental impact assessment
Environmental law - environmental policies
Environmental performance of enterprise
Global environmental change
Health aspects of waste water and solid waste management
Landscape and city planning
