

CALL FOR PAPERS

ICMCC 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCC 2022 : International Conference on Micrometeorology and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Micrometeorology and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acid precipitation
Aerosols
Atmospheric changes
Biofuels and alternatives
Carbon sequestration
Carbon tax
Clean technologies
Climate change and health issues
Climate change modelling and simulations
Climate networks (oceans, regions, forests, etc.)
Climatic events
Coupled ocean-atmosphere systems
Deforestation

Earth sciences
Ecology
Ecology and Social Change
Ecological, Human and Social Changes
Ecosystems and biodiversity
Energy policies and strategies
Energy quality and security
Energy technologies
Engineering tools
Environment policies and strategies
Environment quality and security
Environment technologies
Environmental education and training
