

CALL FOR PAPERS

ICSE 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSE 2022 : International Conference on Systems Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Systems Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Systems ecology
Ecological systems and complexity theory
Sustainable ecological systems and environment
Systems analysis and simulation in ecology
Ecological system analysis and design
Models in ecosystem science
Second order cybernetics and semiotics in ecological systems
Ecological engineering and development
Restoration ecology
Ecology conservation and ecosystem rehabilitation

Non-renewable resource conservation
Air quality and atmospheric pollution
Ecosystems and ecology
Ecosystems management
Environmental economics - sustainable services and systems
Environmental health and impact assessment
Change of environmental systems
Health aspects of waste water and solid waste management
Life cycle management and sustainable production
