

CALL FOR PAPERS

ICUATE 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUATE 2022 : International Conference on Urban Area and Transportation Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Area and Transportation Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil and transportation engineering
General scope of city planning
Public transportation effects to economic and environment
General scope of urban regeneration
Planning, development and management
The community and the city
Urban strategies
Architectural issues
Cultural heritage issues

Landscape planning and design
Urbanization of rural areas
Environmental management
Waste management and intelligent environments
Quality of life
Infrastructures and social services
