

# CALL FOR PAPERS

**ICEMT 2022**  
**Sep 09-10, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMT 2022 : International Conference on Extractive Metallurgy and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Extractive Metallurgy and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Extractive metallurgy  
Extractive metallurgy methods  
Metallurgical testing  
Technology  
Ferrous extractive metallurgy  
Non-ferrous extractive metallurgy  
Activated minerals  
Process and methods of extraction of metals  
Process of separating commercially valuable minerals from their ores  
Natural mineral deposits  
Mineral processing  
Magnetic separation  
Froth floatation

Leaching  
Hydrometallurgy  
Precipitation  
Distillation  
Adsorption  
Solvent extraction  
Pyrometallurgy  
Calcining and roasting operations  
Electrometallurgy  
Electrowinning  
Electro-refining  
Washing, concentration, separation, chemical processes and extraction of pure metal
