

CALL FOR PAPERS

ICADRS 2022
Sep 20-21, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADRS 2022 : International Conference on Automated Driving and Road Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automated Driving and Road Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vehicular automation
Automated vehicles
Automated and connected vehicles
Automated vehicle control
developments
Network systems for vehicular
automation
Automated guided vehicle systems
Vehicle-highway automation
Automatic driving
Automated driving

Vehicle tracking system
Traction control system
Four wheel drive
Electronic stability control
Advanced driver assistance systems
Closed loop automated systems
Dynamic steering response
Automated guided vehicle
Autonomous cars
