

CALL FOR PAPERS

ICBNMGBAOD 2022
Sep 20-21, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBNMGBAOD 2022 : International Conference on Bioengineering Nano and Micro-Gels for Biomedical Applications and Oligonucleotide Detection is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering Nano and Micro-Gels for Biomedical Applications and Oligonucleotide Detection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Liquid biopsy
Bead-based suspension assays
Molecularly imprinted polymers
Oligonucleotide detection
MicroTAS, LOC and TOC

Diagnostic assays
Nanomedicine
Theranostics
Tissue engineering
