

# CALL FOR PAPERS

**ICCB 2022**  
**Sep 20-21, 2022**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCB 2022 : International Conference on Coastal Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Changing distribution pattern of coastal bioresources  
Coastal and marine bioresources  
Conservation biology  
Coastal and marine biogeography and phylogeny  
Large marine ecosystems

Coastal biotechnology: facing the global and regional changes  
Sustainable aquaculture  
Fisheries and CO<sub>2</sub> sequestration  
effects of coastal reclamation on bioresources  
Biotechnologies of salt-tolerant plants
