

CALL FOR PAPERS

ICMSABR 2022
Sep 20-21, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSABR 2022 : International Conference on Mass Spectrometry Applications in Biomedical Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mass Spectrometry Applications in Biomedical Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Proteome profile and/or
quantitative proteomic studies
Protein PTM characterization; Omics
of PTMs
MS-based biomarker discovery and/or
validation

Metabolomics
MS in pharmacology and toxicology
