

CALL FOR PAPERS

ICSWCRCEMR 2022
Sep 20-21, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSWCRCEMR 2022 : International Conference on Soil and Water Contamination, Remediation, Conservation, Ecological Monitoring and Restoration is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soil and Water Contamination, Remediation, Conservation, Ecological Monitoring and Restoration. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Contaminant fate and transport
Ecological monitoring and
restoration
Risk assessment and management

Environmental remediation
Soil and water conservation
Management and sustainability of
land resources
