

CALL FOR PAPERS

ICAMTAB 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMTAB 2022 : International Conference on Advanced Materials Technologies for Automobile Bodies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Technologies for Automobile Bodies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials for automobile bodies
Design and material utilization
Materials technologies for vehicle
and automotive engineering
Engineering requirements for
plastic and composite components
Materials for consideration and use
in automotive body structures

Component manufacturing, modeling,
simulation and design
Corrosion and protection of the
automotive structure
Environmental and safety
considerations
Future trends in automotive body
materials
