

CALL FOR PAPERS

ICCACD 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCACD 2022 : International Conference on Computational Architecture, Creativity and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Architecture, Creativity and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational architecture
Advances in computational
architecture
Software tools for computational
architecture
Computation in architectural
design
Digital designing tools

Built environment
Computational urban design
Digital manufacturing techniques
Innovative computational tools,
processes and theories
Design problems and computational
solutions
