

CALL FOR PAPERS

ICCCMDS 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCMDS 2022 : International Conference on Cascade Control Modeling, Design and Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cascade Control Modeling, Design and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cascade control
Cascade control systems
Cascade control applications
Cascade control block diagram
Fundamentals of cascade control
Designing cascade control systems

Cascade control architecture
The inner secondary loop
The nested cascade architecture
Cascade structures and controller designs
Saturation compensation
IMC/PID cascade
