

# CALL FOR PAPERS

**ICIEOR 2022**  
**Oct 21-22, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIEOR 2022 : International Conference on Industrial Engineering and Operations Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Engineering and Operations Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial Engineering and  
Management  
Supply Chain  
Logistics  
Inventory Management  
Pricing  
Forecasting  
Lean Operations  
Production planning and scheduling  
Quality management and reliability  
Engineering economy  
Location and facility layout  
Human factors / Ergonomics  
Computer aided design and  
manufacturing

Advanced manufacturing  
technologies  
Sustainability  
Energy and efficiency  
Environmental friendly  
manufacturing technologies  
Research & development and  
innovation  
Entrepreneurship  
Systems engineering  
Reverse engineering  
Manufacturing systems  
Information systems management  
Social media and communication  
Data mining  
Human resources management
