

CALL FOR PAPERS

ICSMBDAA 2022
Oct 06-07, 2022
Beijing, China

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMBDAA 2022 : International Conference on Smart Manufacturing, Big Data Analytic and Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Manufacturing, Big Data Analytic and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart manufacturing
Smart manufacturing strategies
Automated material handling
Big data analytic and applications
Computational intelligence for smart manufacturing
Data mining and production improvement
Data science and machine learning for smart manufacturing
Decision support systems
Decision technologies for smart manufacturing
Equipment productivity improvement
Intelligent cooperation and resource planning

Manufacturing intelligence and manufacturing informatics
Mobile and wireless applications
Product design and virtual design
Yield enhancement systems and Condition monitoring of equipment and processes
Energy efficiency, efficient design and systems
Autonomous manufacturing
Cyber-physical systems
Computer-automated design
Computational intelligence
