

CALL FOR PAPERS

ICACM 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACM 2022 : International Conference on Aircraft and Advanced Composite Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aircraft and Advanced Composite Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Composite materials
Advanced composite materials
Types of advanced composite materials
Laminated structures
Major components of a laminate
Strength characteristics
Fiber orientation
Fairings
Flight control surfaces

Landing gear doors
Leading and trailing edge panels on the wing and stabilizer
Interior components
Floor beams and floor boards
Vertical and horizontal stabilizer primary structure on large aircraft
Primary wing and fuselage structure on new generation large aircraft
Turbine engine fan blades
Propellers
