

CALL FOR PAPERS

ICAET 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAET 2022 : International Conference on Advanced Engine Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Engine Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced engine technology
Valves and camshafts
Camshaft chain belt and gear train drives
Engine balance and vibration
Combustion chamber design and engine performance
Induction and exhaust systems
Supercharging systems
Carbureted fuel systems

Petrol injection systems
Ignition systems
Engine testing equipment
Diesel in-line fuel injection pump systems
Diesel rotary and unit injector fuel injection pump systems
Emission control
Cooling and lubrication systems
Alternative power sources
