

CALL FOR PAPERS

ICBSET 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSET 2022 : International Conference on Biogas Science, Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biogas Science, Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biogas science and technology

The production of biogas

Composition of the extracted
biogas

Generation of electricity and heat

Feeding biogas into the natural gas
grid

Small-scale biogas technologies

Industrial waste

Municipal organic waste

Solid waste management

Energy crops

Co-digestion

Crop science

Gas technology

Biogas upgrading

Bio-hydrogen

Odour emissions

Gas grids

Energy providers

Power authorities

Process technology

Pre-treatment

Hydrolysis

Digestate

Research and development

Technical innovation

Microbiology
