

CALL FOR PAPERS

ICBSO 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSO 2022 : International Conference on Bariatric Surgery and Obesity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bariatric Surgery and Obesity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Diagnosis of Endocrine disorders
Current Advances in Endocrinology
and Metabolism
Pediatric endocrinology disorder
and treatment
General endocrinology
Clinical Trials in Endocrinology
Latent autoimmune diabetes of
adults (LADA)
Preclinical safety evaluation of
stem cell-based therapies for
diabetes
Prognostic marker
Diabetic nephropathy marker
Molecular markers for both
metabolic syndrome and hypoglycemia
response
Genetic lifestyle interaction in
the development and prevention of
diabetes
Physiology of the endocrine
pancreas
Alpha and Beta cells

Physiology of Diabetes Type 1
Physiology of Diabetes Type 2
Pathophysiology of hypoglycemia
Epidemiology and pathogenesis of
diabetes
Diabetes and metabolic syndrome
Diabetic myelopathy
Pathogenesis of diabetes
Recent advances in genetics of
diabetes
The Role of Incretins in Insulin
Secretion
Diabetes: Type 1 and Type 2
Gestational Hyperglycaemia and
Diabetes
Autoimmune Diabetes Mellitus
Latent autoimmune diabetes of
adults
