

CALL FOR PAPERS

ICECD 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECD 2022 : International Conference on Endocrinology and Clinical Diabetes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Endocrinology and Clinical Diabetes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Diabetes management
Advanced technologies and treatments for diabetes
Advancement of new drug/biomarker
Discovery for treatment of diabetes
Genetics of diabetes
Diabetic case studies
Neonatal diabetes and hyperinsulinism
Emerging focus in diabetes research
Transplantation for diabetes

Endocrinology: disorders and treatment
Cell therapy for diabetes and its complications
Clinical diabetes and diagnostic approaches
Diabetes and its complications
Diagnosis of diabetes
Complementary and alternative medicines for diabetes
Diabetes and associated diseases
