

CALL FOR PAPERS

ICGSEA 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSEA 2022 : International Conference on Groundwater Science and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Groundwater Science and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Groundwater science	Groundwater resources
Geology and groundwater flow	Agriculture and groundwater
Computer-assisted flow modeling	Groundwater resources and ecology
Groundwater chemistry	Groundwater and geologic environment
Groundwater contamination	Groundwater pollution
Groundwater for sustainable development	Groundwater exploitation and utilization
Hydrogeology and environmental geology	Groundwater information science
Groundwater hydrology	Climate change and groundwater
Sustainable management of groundwater resources
