

CALL FOR PAPERS

ICHSMH 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSMH 2022 : International Conference on Healthcare Simulation Models in Healthcare is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Simulation Models in Healthcare. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare simulation	Anesthesiology
Modern medical simulation	Emergency medicine
Healthcare simulation technologies	Surgery
Debriefing and education in healthcare simulation	Obstetrics and gynecology
Simulation-based medical teaching and learning	Pediatrics
Patient safety and simulation-based medical education	Family practice
Error management and error prevention	Internal medicine
Hybrid simulation models	Advanced trauma life support
High fidelity simulators	Dentistry
Practical applications of healthcare simulation	Community and legal services
Physical diagnosis	Human considerations and financial considerations
Nursing education
