

CALL FOR PAPERS

ICIIBM 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIIBM 2022 : International Conference on Intelligent Informatics in Biology and Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Informatics in Biology and Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary Genetics, Genomics,
Proteomics
Genetics, Population Biology and
Morphometrics of Vectors
Host Genetic Susceptibility to
Infectious Diseases
Mathematical Modeling and
Bio-informatics
Molecular Diagnostics
Molecular Epidemiology
Population Biology
Coevolution
Systems Biology
Statistical Analysis and
Interpretation
Translational Medicine
Diagnostic Methods
Cell Biology Techniques

Immunological Methods
Molecular Methods
Bioinformatics: Applications in
Biochemistry
Clinical Biochemistry and
Laboratory Medicine
Herbal Medicine
Histochemistry
Metabolic Inborn Diseases
Molecular Basis of Cancer and Tumor
Markers
Molecular Biology and Genetic
Disorders
Modern Techniques and Biomedical
Diagnosis
Nano-Biotechnology: Applications in
Biochemistry
Nutritional Biochemistry
Protein Chemistry and Enzymology
