

# CALL FOR PAPERS

**ICLSCM 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSCM 2022 : International Conference on Language Sciences and Corpus Methodology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Language Sciences and Corpus Methodology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The use of corpora in discourse analysis  
Corpus methodology  
Theoretical corpus linguistics  
The interface between corpus and linguistic theory  
Psycholinguistic and cognitive explorations  
Corpus-based lexicology and lexicography  
Corpus approaches to the study of new media  
Corpus design, compilation and types  
Applications of corpus approaches in the social sciences and humanities

Corpus-based lexicology and lexicography  
Sociolinguistics, language variation and applied linguistics  
Corpus-based grammatical studies  
Discourse, corpora and literary analysis  
Corpora, contrastive studies and translation  
Corpus-based computational linguistics  
Corpora, language acquisition and teaching  
Special uses of corpus linguistics
