

CALL FOR PAPERS

ICMAA 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAA 2022 : International Conference on Musical and Architectural Acoustics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Musical and Architectural Acoustics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural and Room Acoustics:

Architecture, design and planning of concert halls / opera houses
Measurement of concert halls / opera houses
Simulation and auralization of concert halls / opera houses
Evaluation of concert halls / opera houses
Stage acoustics

Musical Acoustics:

Physics of musical instruments and voice
Sound production - Sound synthesis
Music perception
Instrument making
