

CALL FOR PAPERS

ICMICET 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMICET 2022 : International Conference on Modelling, Identification and Control Engineering and Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modelling, Identification and Control Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

System identification
Data-driven modeling and control
Adaptive control
Linear/nonlinear control systems
Predictive control
Optimization and optimal control
Process modeling and process control
Cooperative control systems
Networked control systems
Intelligent systems
Soft computing techniques
Signal processing and information fusion

Fault diagnosis and reliable control
Vibration analysis
Noise measuring and control
Condition monitoring
Structural dynamics
Pattern recognition
Machine learning and artificial intelligence
Systems biology and life systems
Sensor networks and internet of things
Big data and cloud computing
Discrete event and hybrid systems
